# President's Message

## Welcome to our 2022 Strategic Community Plan for the Shire of Chapman Valley

This Plan will serve as a key planning and decision tool, and it clearly outlines the Community's strategic priorities

and vision to advance Chapman Valley for the next ten years and beyond.

The original plan was adopted by Council in 2017, and this review was scheduled to commence in 2021, when Cyclone Seroja left a trail of destruction across our community, and the state of Western Australia was still dealing with the COVID 19 pandemic.

The focus of the Shire of Chapman Valley turned to what needed to be done immediately to support the community and postponed the commencement of this review. As we build back better after these events, we note the lasting impacts on our community as reflected in their views and feedback.

The Plan was developed in consultation with community and key stakeholders. It conveys "what matters most to community". My thanks go to the members of our community who played a vital role in providing the input and ideas via workshops, one to one meeting, and responding to our surveys on our website, and postcards. Your response gave Elected Members valuable insights into community needs and aspirations for the future.

In 2025 it is now time to review the document and report on our accomplishments in the form of a desktop review. Whilst only a minor review, it will be an informing tool for the council.

This plan centres on social, economic, health and lifestyle, and environmental pillars under effective accountable governance. We will continue to work with the community on the ongoing development and implementation of plans as we remain focused on our vision of a thriving community, making the most of our coastline, ranges, and rural settings to support us to grow and prosper.

Our aim is to ensure an ongoing and aligned effort in maintaining and improving assets and infrastructure appropriately to meet the needs of our diverse communities, as well as seeking opportunities to enhance lifestyle and community wellbeing. Achieving success of identified aspirations will rely on working closely with the community, local businesses, regional bodies, other local government authorities, State and Federal Governments, as well as the private sector.

Funding and resourcing for strategic development is always uncertain and fluctuating, which does not allow for exact planning and timing. You can be assured Council and staff will be working to maximise opportunities to progress the strategic goals and objectives.

I encourage all to take an interest in contributing to our exciting and vibrant future.

Kirrilee Warr  
Shire President

# Strategic Context

## Strategic Community Planning Context

Our strategic community plan, (SCP) is a Council visionary document for the next 10 years, based on community input and research to ensure our future is sustainable. While acknowledging this does not endorse all outcomes to be delivered, the plan will guide our decisions over the next 10 years. The Corporate Business Plan (CBP) identifies what we hope to achieve in the shorter term and the steps we will take towards our vision. This will enable us and the Community to review and monitor our progress towards achieving our identified needs and community aspirations.

## Management and delivery

The Shire President and Councillors provide strong leadership and represent the shire on many regional committees and forums to ensure the best outcomes possible for the community of Chapman Valley. The CEO leads a strong team of staff in the areas of governance, corporate administration, building, planning, community development, ranger services, road construction and maintenance as well as gardening crews, cleaners and a caretaker at Coronation Beach who maintain the day-to-day operations of the shire.

# PROFILE: SHIRE OF CHAPMAN VALLEY

The Shire has a proud history since it was established as the Upper Chapman Road board in 1901. It was not until 1960, under the Local Government Act, the board became known as the Shire of Chapman Valley. The Shire offices were established in Nabawa.

The Council consists of eight elected members who bring with them knowledge from each section of our community, from the residential and lifestyle areas near the coast through to the Chapman Valley and further inland to Yuna.

The peri-urban area local areas located in the south-west corner of the shire are the fastest growing areas, offering residents the opportunity to live a semi-rural lifestyle close to the ocean and the neighboring city facilities.

## Population and Economy

The local economy has been primarily based on broad acre farming and smaller diversified farming lots. There has been growth in diverse industry establishment. The area in general provides an attractive place and lifestyle choice for small hobby farms, tourist attractions and cottage industries.

The western region of the Shire is developing as a peri-urban settlement with a mixture of rural residential blocks and small acreage. The future economic viability of the Shire of Chapman Valley will be strongly influenced by population retention and growth, availability of funding to support facilities, asset development and a close relationship/ partnership with stakeholders in regional development, which have been considered in the Plan. Information relating to the regional economy is available at Midwest Development Commission website [www.mwdc.wa.gov.au](http://www.mwdc.wa.gov.au)

## 2021 CENSUS:

- People: 1556, Males: 51.8%, Females: 48.2%, Aboriginal and/or Torres Strait Islander people: 4.8% of the population

- Couple family without children: 50%, Couple family with children: 42%, One parent family: 8.7%, Other family: 1.2%

- Median Age: 44

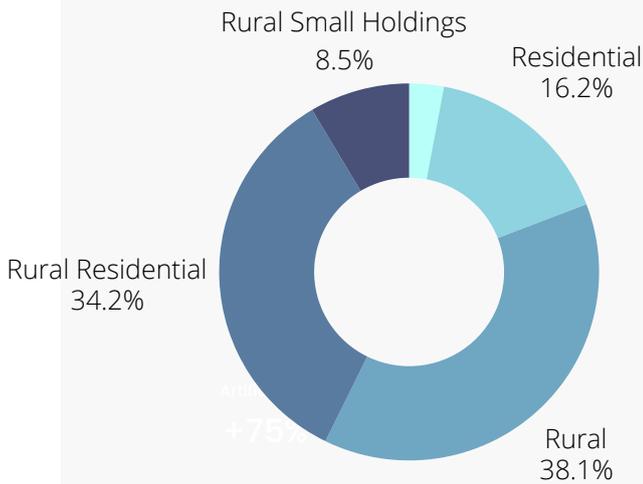

- Occupied private dwellings 84.2%

Note: The 2021 Census counted nearly 25.5 million people (25,422,788) in Australia, excluding overseas visitors, on Census night. Chapman Valley data, as completed by the Chapman Valley population and presented by the ABS appears above.

# Developing the Strategic Community Plan

## Development

The Shire, in partnership with community and stakeholders, has developed a shared vision, goals and outcomes. In the initial stages of development, research was undertaken to ensure our Council make informed decisions for our local community. This includes ongoing review of the Commonwealth and State Government plans, and long-term demographic changes and impacts, risks and challenges facing our community, to ensure we are a sustainable and growing community. Community feedback is critical to understand our identity in building our shared vision, and to provide the opportunity to develop key areas of need, opportunity, and priority.

## Workshop Purpose

- To impart the details of Integrated Planning Framework history and explain the framework and the links to long term financial planning and budgeting, asset development and management, and, to ensure the Shire has the capacity and capability to deliver the services and functions of the Shire.
- To identify the elements of living in the Shire that were particularly valued by participants,
- To give participants the opportunity to discuss their aspirations or concerns while hearing and appreciating others' divergent points of view.

## Community Engagement

Community engagement surveys and workshop outcomes were recorded to guide decision making. Postcard surveys were mailed to residents upon request and placed in local areas. An online survey with the same set of questions was available on the Shire's website. A total of 64 people responded to the surveys.

## Structure

The structure of the community consultation workshops was consistent in the context of the information provided and participant discussions.

- To encourage people to work in groups using a forward-thinking approach, looking 10 years into the future for desires and aspirations for their community.
- To capture key concepts and ideas from the groups for the vision statement and strategic priorities.
- To determine key priorities with an informal voting system in workshops and by discussion in meetings to identify the community's priority areas for consideration or action.
- To determine community priorities for the next four years for Council to consider in decision making.
- To determine key priorities with an informal voting system in workshops and by discussion in meetings to identify the community's priority areas for consideration or action.

# Community Feedback

Rather than asking people to provide a wish list of needs and aspirations, the aim was to bring their attention to the breadth of issues, opportunities and aspirations across the Shire. Participants were also informed strategic decision making must always take affordability and jurisdiction into account. As initially expected, the meetings and workshops' focus varied on the location of the gathering.

A total of 42 people attended the workshops.

## Issues & Challenges

-  Keep Independent Rural Lifestyle
-  Sporting and Social Infrastructure
-  Ageing in place- Services & Housing
-  Population & Housing opportunities
-  Retain local services & facilities
-  Floods, Fire, Storms, Weeds
-  Reliable power, water, internet
-  Tourism, businesses, Transport

Population maintenance and growth to ensure schools stay open. Supported volunteers can manage burnout and maintain social connectivity and activities across the Valley.

# COMMUNITY VISION, ASPIRATIONS AND KEY THEMES

The vision and aspirations were supported, and the following key themes emerged from the community consultation processes.

## Our Aim

To maintain and build population while ensuring financial and asset management is robust to allow for effective service delivery as an independent shire participating in the growth of the region.

## Our Shire and Community will:

- Value our past and embrace our future;
- Experience a safe and peaceful place to work, live or visit;
- Enhance the Valley lifestyle with an area specific approach to community development;
- Ensure ongoing sustainability through affordable development and informed decision making; and
- Welcome local tourism activities and encourage participation in regional tourism strategies.

Vision: "A thriving and diverse community, embracing our coastline, ranges and rural settings to support growth and prosperity, while enjoying our peaceful and quiet lifestyle."

## The Strategic Community Plan responds to three questions:

- Where are we now? • Where do we want to be? • How do we get there?

From the feedback received from the community the following themes and objectives have been compiled to give guidance to decision making over the life of this Strategic Community Plan. These themes outline where we want to be, and the Corporate Business Plan will include strategies to progress through these objectives. Strategies and timelines will be determined, resourced where practicable, and progress and outcomes monitored.

# Going Forward

## Funding the Plan

The Council has endorsed the revised Long Term Financial Plan (LTFP) and Asset Management Plan (AMP). The LTFP underpins decision making to ensure strategies and projects resulting from the Strategic Planning processes can be reviewed against the long-term sustainability and timeliness for affordable delivery.

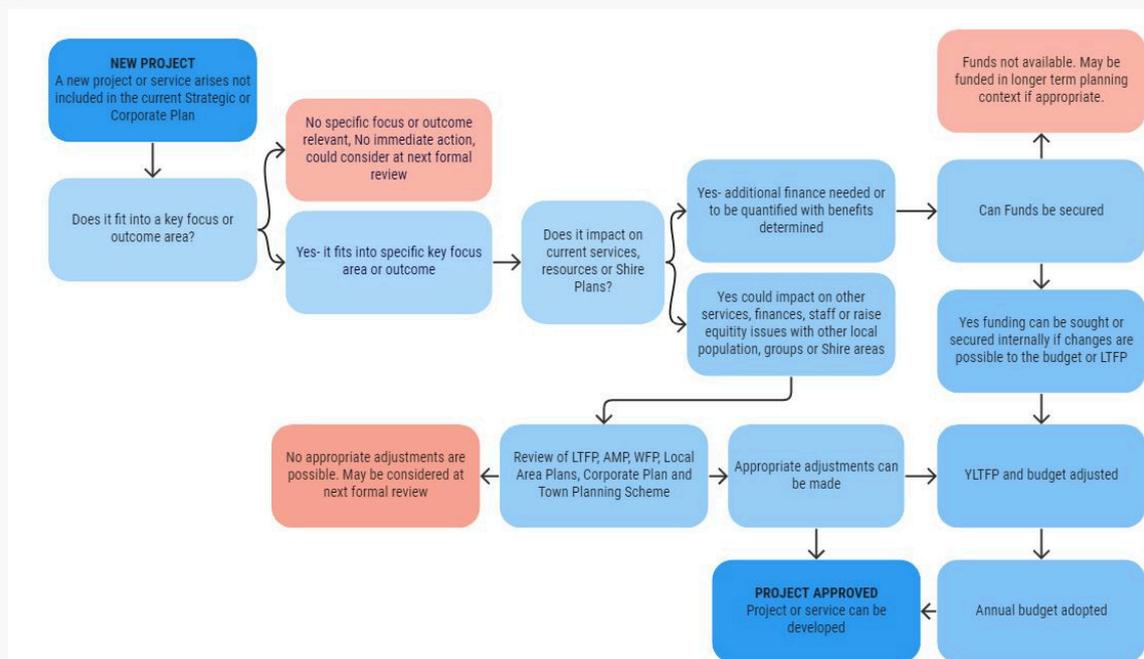

## Reviewing the Plan

The SCP Actions against the Plan will be monitored through the Corporate Business Plan reporting framework on a six-monthly basis and the Council will be kept informed on progress and outcomes. The community will be formally informed on progress and outcomes through the Annual Report. This Strategic Community Plan is currently under a desktop review in 2024/2025 as is required under legislation, and a full community re-engagement process will be conducted in 2026.

## Adapting to Changing Needs

In consulting with the community, desires and aspirations for the Towns and localities of the Shire were heard and acknowledged. These are dependent on population growth, funding availability, affordability or Council having jurisdiction. Priorities and resources are planned accordingly. This Strategic Plan is reviewed every four years, with internal review / adjustment by Council two years into each four-year cycle. New needs and aspirations may arise between planning timeframes.

The IPR Framework is not so inflexible that new ideas cannot be considered, but the timing for Council to consider new requests or ideas is prior to the annual budget review. The response to such requests will go through a formal decision-making process as outlined in the flowchart below. This will ensure the implications of the new idea, project or service are known before final decisions are made.

# Appendix One: Community Feedback

Priority areas from postcards and survey. What one thing would you most like to see achieved in the next 4 years:

- A clean estate,
- Just general looking after the town and community,
- Shop,
- Stability with local roadside postal service,
- The school having more kids & not closing,
- Waterpark,
- Ways to evolve and incorporate various demographics,

- Assist in the promotion of tourism businesses (and businesses as a whole) that will ultimately bring more money into the Shire,
- Finalise the Coronation Beach Master Plan and align with the Coastal Management plan,
- Improve road conditions, food-based business opened in Yuna,
- Incentives for people to build in Nabawa,
- Increase the services available by further sharing personnel/processes with the neighbouring Shire of Northampton,
- More families moving into the community with opportunities to grow and build the community,
- More industry for the valley,
- Nanson revitalisation project,
- Smaller building blocks and 3 phase power,
- Telstra improving their power backup, and Western Power improving their ability to reconnect power within a shorter timeframe. Chapman Valley Road upgrade locked in. Ability and opportunity for new people to buy build or rent in rural parts of Chapman Valley. Consider new areas to open up like Urawa. Investigate opening up large lifestyle blocks.
- Visitor Centre, community resource centre developed,

- A by-law introduced that forbids people to abandon vehicles on their land and leave them to become rust heaps overgrown with weeds. These are an eyesore, an environmental hazard, and a haven for vermin such as mice and snakes. Perhaps have a one-month amnesty, then hit them hard with fines,
- A greening CV program especially the semi-rural areas with close housing,
- Beautifying of verges,
- Better integrated rabbit and weed control in White Peak,
- Clear bridle paths. Wind breaks via tree planting, rabbit control,
- Community tree plantings,
- Eradication of the Walkaway Burr,
- Fix the bridle trails,
- Much better weed control especially at Bill Hemsley Park,
- No more weeds,
- Pest control (rabbits/weeds),
- Shire and owners maintaining weeds and Shire making sure bridleways are regularly mowed,
- Structured program for eradication of Walkaway Burr,
- Trails improved to encourage leisure and physical activity around Park Falls,
- Weed and rabbit population is under control,
- Weed Management Plan,
- Weeds controlled and bridle paths maintained,

# Appendix One: Community Feedback

Priority areas from postcards and survey. What one thing would you most like to see achieved in the next 4 years

- A block of toilets so the travelers can use.
- Speed limit changed on the Nanson-Howatharra Rd. Close to NWCH to 60,
- A decent bitumen road from Geraldton to Nabawa. It is still a bumpy goat track and getting bumpier,
- Backup generator for communications tower,
- Better roads and drainage in Parkfalls,
- Bike paths / foot paths to make the roads safe and people to be able to ride into Geraldton - down to the Drummonds path or along Eliza Shaw and David Road/Hall Road etc. so it is safe to ride push bikes through Parkfalls,
- Community battery - Upkeep of footpaths,
- Cricket and football training facilities built at Bill Hemsley Park,
- Electronic charging stations for vehicles,
- Equestrian facilities at Bill Hemsley Park,
- Geraldton-Northampton bypass completed,
- Improved mobile service,
- Improved road maintenance,
- Improved Sporting / Training facilities at BHP or Maintenance and upgrade of utility services eg power and water would be brilliant,
- Improvements to local roads where usage warrants,
- Mains water for Nanson and Nabawa,
- More growth in our community, with shops, playgrounds, and school,
- More parks, places to walk, verges eg near Cooper St, bicycle lanes,
- No more power outages - Much better communication,
- Power supply needs to be reliable,
- Reliable mobile coverage to the Nanson area,
- Retirement Units,
- Shade sails at park,
- Shade sails at the Bill Hemsley Park over the play equipment,
- Some 10 to 20 acre blocks- Get some population backs - community facilities for people (teenagers),
- Stability of power supply,
- Training Oval at Bill Hemsley Park to assist with retention of CV Sporting Clubs in the community,
- Visitor Centre and community resource centre developed,
- Water mains,
- Widening of Chapman Valley Road near Naraling,

- Chapman Valley does not amalgamate with the City of Geraldton,
- Enforcement of building and town planning regulations, living in sheds to be stopped lowers the standards of the area
- Funding for people interested in being a member on a local committee but don't feel confident to do so as they lack the skills ( ie leadership, financial),
- I think the Shire do an amazing job, just continue doing that,
- Not much to change. I like how things are done out here at the moment. I feel the council is in good hands,
- Spend our rates in our area (White Peak),
- Updated visibility. The area is looking tired and dated,
